

The 2018 IPA Best Of The Best Under \$5 Million

Continuing its tradition of more than 25 years, INSIDE Public Accounting (IPA) has unveiled the 2018 list of the Best of the Best public accounting firms in the nation. This group, the highest performers within the profession, is ranked on more than 50 metrics. The 2018 Best of the Best firms produce superior financial results while planning for long-term, sustainable growth.

Best of the Best firms represent the top 10% of all firms that participated in the 2018 IPA Survey and Analysis of Firms. IPA’s proprietary scoring formula looks at a variety of metrics related to growth, income, productivity, tools of governance, staff turnover, time management and other areas that speak to the framework of the firm to determine the Best of the Best.

“Most firms don’t aspire to be average. Best of the Best firms are the peer group to which progressive firms aspire,” says Michael Platt, principal of the Platt Group and publisher of IPA. “In presenting the results of the IPA Best of the Best, we are proud to continue the tradition of expanding the imagination and the understanding of what is possible to achieve in running a public accounting firm.” ■IPA
